**Upstairs Solutions LTC Certified for On-line  
CNA Continuing Education by the State of California**

SKOKIE, IL – The State of California Department of Public Health certified Upstairs Solutions LTC as a Continuing Education On-line Provider for Certified Nurse Assistants.

Upstairs Solutions LTC assists senior facilities with compliance and excellence in staff training by offering high-quality on-line education and an on-line LMS (learning management system) to deliver and administer employee training. Certified nursing assistants (CNAs), also known as nurse's aides, provide assistance and care to nursing home residents with activities of daily living. The in-services, compliance training, and education tracking systems provided by Upstairs Solutions are an important part of ensuring quality of care and compliance with federal, state and local regulations.

“The State of California is known for its progressive and rigorous requirements in the areas of CNAs, on-line continuing education, and administrative obligations, and the new procedures added last year in the AB1235 legislation set the standard even higher,” said Upstairs Solutions LTC Principal Tamar Abell. “Our training programs are unique to the industry, and we’re very proud that the California Department of Public Health recognizes that Upstairs Solutions meets their requirements.”

The Upstairs Solutions web-based service for on-line CNA continuing education is approved by the California Department of Health and is available for clients immediately.

**About Upstairs Solutions LTC - Leaders in Training and Compliance for Senior Communities**

Upstairs Solutions LTC assists senior facilities with compliance and excellence in staff training, continually raising the bar in senior care quality and training. UpstairsSolutions.com currently offers more than 100 multimedia, interactive, online learning modules for elder care community staff, as well as a flexible and sophisticated LMS (learning management system) to help track employee training. Two nursing home administrators formed Upstairs Solutions originally to train their own staffs, and today the fast-growing company provides e-Learning to facilities across the nation.
